### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

In view of the comments made by the applicant directed to the Declaration under 37 CFR §1.132 and the response the applicant has given to the requirement under 37 CFR 1.105, the available prior art of record, which according to the applicant's Declaration does not include "Indexing Weighted-Sequences in Large Databases", does not teach, disclose, or suggest (in combination with all other limitations of the claim), "receiving a sequence comprising one or more pairs of symbol and weight elements, the symbol elements corresponding to a non-uniform frequency distribution" and "reordering the one or more one-dimensional sequences using the non-uniform frequency distribution to generate a new sequence" as claimed in the independent claims.

2. With regards to the applicant's arguments towards the rejection given to claim 15 under 35 USC §101, the arguments have been considered, and are deemed persuasive since a program storage device does not need to produce a result provided that the result is evident from the applicant's disclosure. Therefore, the rejection under 35 USC §101 is withdrawn.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob F. Betit whose telephone number is (571)272-4075. The examiner can normally be reached on Monday through Friday 10:30 am to 6:30 pm.
